provider & consultant (Realtime & VoD) | Content Creator | Web
Development.

Nairobi County, Kenya

Summary

In the fast-paced world of technology, I thrive on embracing the digital frontier. Whether it's experimenting with the latest development tools, exploring innovative video production techniques, or staying abreast of emerging technologies, I am committed to continuous learning and growth. My goal is to contribute to the evolution of the tech landscape, leaving an indelible mark on the digital realm.

I am the founder of Stream Alive, a company that provides video streaming services and solutions for events, conferences, podcasts, and gaming. I have a passion for creating engaging and interactive live streaming experiences, and I have a strong background in video streaming engineering, web development, and creative design. I am always eager to learn new technologies and skills, and I have obtained certifications in Google Analytics and AD tools, Video Streaming Concepts, Full stack web development, Oracle Cloud Infrastructure, and succeeding in web development from accredited certification platforms.

Experience

Office of The Woman Representative
Digital Media Manager | Live Streaming Engineer
January 2024 - Present (9 months)
Nairobi County, Kenya

My responsibilities encompass the creation, curation, and management of digital media content, encompassing text, graphics, audio, and video. I leverage digital channels for marketing, advertising, and communication objectives. Additionally, I analyze data to extract valuable insights, aid in decision-making, and optimize business processes. I am adept at developing and implementing strategies that seamlessly integrate technology and media

to accomplish organizational goals. Furthermore, I provide comprehensive training and support to end-users, ensuring their proficient and productive utilization of technology. Lastly, I remain abreast of new and emerging technologies, evaluating their potential impact, and offering recommendations accordingly.

Kutima Software

Streaming Engineer

2020 - Present (4 years)

Nairobi County, Kenya

At Kutima Software, my role as a streaming engineer revolves around delivering top-tier video streaming solutions that prioritize user-friendliness and uncompromising quality. With a wealth of experience spanning over three years, I have accomplished numerous projects involving live streaming, web conferencing, web development, and UI/UX design.

Office of The Woman Rep, Nairobi County

Our primary goal is to ensure that your content reaches your audience as quickly as possible. We are experts in end-to-end web development, including web hosting and domains, with a strong focus on UI and UX design. With Stream Alive, you can trust us to handle your social media presence effectively. From social media management to building and managing your Social channels, such as your YouTube channel, X (formerly Twitter) account, or Facebook page, we will implement an SEO strategy to ensure the success of your brand. Furthermore, our specialization in hosting online broadcasts adds a unique dimension to our services. Join us at Stream Alive, where we combine creativity with expertise to create a thriving digital space in the vast internet environment.

Stream Alive

Web Developer & Wordpress Developer

2020 - Present (4 years)

Nairobi, Kenya

I specialize in creating and designing Websites that are optimized for SEO and feature user-friendly interfaces to enhance the overall user experience. Additionally, I have extensive experience working with Wordpress, a reliable and dependable CMS that offers a wide range of automated plugins. These plugins enable the creation of responsive, dynamic, and secure Websites.

Wtv kenya

Media Presenter

May 2016 - January 2020 (3 years 9 months)

Nairobi, Kenya

Worked as a Producer, Reporter and Presenter of various Business and Sports shows.

JESUS IS LORD RADIO MINISTRIES INTERNATIONAL WORLDWIDE INC

On Air Personality, Radio Personality, Administration

February 2009 - March 2016 (7 years 2 months)

Nakuru

As a volunteer On-Air Radio presenter at Jesus is Lord Radio, I energetically hosted radio shows, captivating the audience with uplifting music, inspiring messages, and interactive segments. I maintained a friendly and inviting tone to establish a welcoming ambiance for listeners, and skillfully curated content that resonated with the station's target demographic. Whether introducing religious programs, sharing personal stories of faith, or conducting interviews, I played a crucial role in connecting the audience through the airwaves.

In my administrative capacity, I played a part in ensuring the smooth operation of the radio station by assisting with various behind-the-scenes tasks.

This encompassed managing schedules, coordinating events, handling paperwork, and ensuring the efficient day-to-day functioning of operations. My commitment to administrative responsibilities helped maintain an organized and structured environment at Jesus is Lord Radio, enabling other volunteers and staff to concentrate on delivering high-quality content.

Furthermore, as a volunteer in the ministration role, I actively engaged in the spiritual and religious aspects of the radio station. I actively participated in hosting prayer sessions, sharing biblical insights, and presenting content that aimed to uplift and inspire the station's listeners. My dedication to ministration responsibilities contributed to the creation of a platform that not

only entertained but also fostered a profound spiritual connection with the audience.
